

ActEarly Evaluation theme: SCOPE

Meta-evaluation

Evaluating the impact that ActEarly has on key outcomes across whole cities

Mixed methods approaches to consider longitudinal effect of multiple projects

Methodology

Building capacity, and knowledge in innovative evaluation approaches

Sharing and developing innovation and robust methodology

Project evaluation

- Providing design support to partners in their project monitoring and evaluation
- Actively participating in theme driven evaluations
- Supporting/leading funding applications

Research on Research

Evaluating the impact of ActEarly on networks and collaborations
